# Find a recycling depot close to your home

The map below shows the location of all our recycling depots.

At our recycling depots, you can dispose of recyclable materials, e.g. timber, construction waste, soil and garden waste, as well as larger items or quantities of e.g. metal, glass and cardboard, for which your recycling bin is too small.

You can also buy garden compost, and donate items you no longer need to the second-hand shops, so that someone else can put them to good use.

## Do you need access to the recycling depot outside normal hours?

If you live in Sønderborg Municipality, you have access to several of our recycling depots 24/7/365. All you need is a mobile phone.

The scheme is called **Adgang365** (Access365).  
Subscribe to **Adgang365** at [www.sonfor.dk/365](http://www.sonfor.dk/365)
